

COMPLIANCE VERIFICATION ENGINEER (CVE). BIGGIN HILL, UNITED KINGDOM

Overview:

JETMS Completions is an Aircraft Interiors company based at **Biggin Hill Kent, London**. Its main objective is to supply Design, Certification, Manufacture and Installation of commercial and VVIP aircraft interiors to the aviation industry.

JETMS is a family member of **Avia Solutions Group**, the largest ACMI (Aircraft, Crew, Maintenance, and Insurance) provider globally, managing a fleet of approximately 209 aircraft. In addition to ACMI services, ASG offers a wide range of aviation solutions, including MRO (Maintenance, Repair, and Overhaul), pilot and crew training, ground handling, and more.

JETMS Completions is seeking **Compliance Verification Engineer (CVE)**, for its office based in Biggin Hill, Kent, London.

Purpose of Role:

The main purpose of this role is to ensure that aircraft design and modifications complies with all applicable airworthiness requirements. Acting as an approved signatory under the organisation's Design Organisation Approval (DOA), the CVE will provide independent verification of compliance, support certification activities, and liaises with regulatory authorities.

Key Responsibilities:

- Independently verify and approve compliance with relevant airworthiness regulations like CS-25, CS-23, CS-E, FAR, JAR etc
- Provide compliance statements and sign-off for design data, drawings, reports, and substantiation documents
- Liaise with CAA, EASA, or other applicable airworthiness authorities during certification processes
- Review and approve compliance demonstration documentation including test plans, analysis reports, and compliance matrices
- Ensure designs meet applicable safety, performance, and regulatory requirements. Support Type Certification, Supplemental Type Certificate (STC), and Minor Change/Major Change processes
- Participate in internal design reviews and contribute to risk assessments
- Advise design engineers and project teams on regulatory compliance matters
- Maintain up-to-date knowledge of applicable regulations and guidance materials
- Represent the Office of Airworthiness in audits and certification meetings

Required Qualifications & Experience:

- Degree In Aerospace Engineering, Mechanical Engineering, or a related discipline
- 5+ years aviation experience in aviation design and/or regulatory environments, with a proven record of compliance demonstration

- CVE authorisation (in Structural / Cabin Safety/ System)
 - Experience with the preparation and approval of certification documentation
 - Thorough knowledge of the chapters including referenced procedures affecting the design, approval and continued airworthiness process
 - A good working knowledge of past and current requirements, e.g. FAR, JAR, CS relevant to the discipline(s) for which they are employed and EU Regulations
 - Knowledge of Part 21
 - Computer literacy with a working knowledge of MS Word, Excel
-

JETMS is a global provider of integrated world-class aircraft solutions that meet numerous servicing and modification requirements including line and base MRO, bespoke interiors, exteriors, and VIP aircraft completions.
