

TECHNICAL SERVICES ENGINEER - STRUCTURES. RIGA, LATVIA

WHAT WILL YOU DO

Our Technical Services engineers support the requirements of Continued Airworthiness and Technical Supervision related to all Engineering projects while managing the evaluation of Airworthiness Directives, Service Bulletins, and other Airworthiness Data.

As part of the TSE-Structures team, your daily tasks will include:

- Prepare, issue, and update aircraft Damage and Repairs status list and chart;
- Ensure transfer from JTL/ETL to OASES of temporary or life-limited maintenance requirements resulting from repairs and damages;
- Provide updates on weight and balance changes to the Engineering Manager;
- Supervise and Manage all structure repairs;
- Prepare and gain approval for necessary structural repairs;
- Create Engineering Orders and update information in the maintenance database;
- Evaluate damage and repair status of new aircraft arriving in the fleet and convert Damage List/Chart, Fan blade Damage List/Chart to company standard;
- Prepare and include Structural Repair and re-inspection tasks in the Base maintenance work package preparation sheet.

LET'S TALK ABOUT YOU

- Show competence to prove sufficient knowledge to interpret maintenance requirements into maintenance tasks;
- At least 2 years of experience with an air carrier, the commercial operator is a must;
- Completed relevant aircraft-type training or familiarization courses will be considered an advantage;
- Good knowledge of EASA rules and regulations;
- Good knowledge of the English language;
- Good knowledge and experience in operating computer software programs and handling computer data and information. Knowledge of OASES will be considered an advantage.

THIS IS WHY YOU WILL LOVE TO WORK WITH US

- Opportunity to work together with global aviation experts;
- International, friendly, modern, and comfortable work environment;
- Fully paid lunch and healthy snacks in the office;
- Advanced health insurance after the probation period;
- Paid day off on your birthday;
- For professional and personal development opportunities, join our Talent Academy, Leaders Club, or other development incentives;
- Corporate and social events.

**Please note that background checks will be conducted on all applicants and restrictions that can suspend the process of employment in accordance with the Law on Aviation Article 57.1. will be additionally evaluated.*

By applying to this job advertisement, the applicant takes full responsibility for declaring truthful information. In case, if information submitted will be discovered false or the Background Check result will return negative, participation in the recruitment process will be terminated.

In its 27 years in the ACMI and air charter business, SmartLynx Airlines has earned a name for itself as one of the finest in the industry. Operating a fleet of Airbus A320s and Airbus A321s aircraft, the airline transports over 3 million passengers annually in Europe and Asia.
