

## **LEAD CAMO ENGINEER. VILNIUS, LITHUANIA**

### **ABOUT COMPANY:**

FL Technics is a global provider of tailor-made services for aircraft maintenance, repair, and overhaul (MRO), delivering solutions to commercial aviation customers worldwide. FL Technics operates in a vast network of representative offices, hangars, and shop facilities, as well as the largest independent line maintenance stations network across Europe, Asia Pacific, Africa, the Middle East, and Canada.

FL Technics is part of Avia Solutions Group, the world's largest ACMI provider, operating a fleet of 192 passenger and cargo aircraft worldwide.

### **About the Role**

We are looking for a highly skilled CAMU Lead Engineer (Structures Group) to oversee structural engineering activities and ensure the continued airworthiness of our aircraft fleet. This role plays a crucial part in maintaining the highest safety standards, driving engineering innovation, and leading a team of experts in a dynamic and growing aviation environment.

As a senior technical leader, you will guide the structures team, collaborate with authorities and OEMs, and directly influence fleet safety, maintenance quality, and long-term structural reliability.

### **YOUR TASKS:**

#### **Lead & Develop the Structures Engineering Team**

- Manage and coach a team of structural engineers.
- Set priorities, allocate workload, and ensure technical excellence.
- Promote a culture of continuous improvement and knowledge sharing.

#### **Drive Structural Airworthiness & Compliance**

- Ensure all activities meet EASA/FAA, OEM, and company standards.
- Lead preparations for internal, customer, and authority audits.
- Review regulatory changes and ensure timely implementation.

#### **Provide Expert Technical Oversight**

- Prepare, verify, and approve Engineering Orders, Job Cards, and Job Orders.
- Evaluate ADs, SBs, STCs, and MODs to determine fleet impact.

- Support structural damage assessments and provide repair recommendations.

- **Liaise with OEMs, MROs, and authorities** when needed.

#### Enhance Digital Engineering Processes

- Oversee and optimize data quality in AMOS/OASES or similar systems.

- Support digitalization initiatives within CAMU.

### **WHAT YOU SHOULD BRING:**

#### **Education & Experience**

- University degree in Engineering (Aerospace or Aviation preferred).

- Minimum 3 years of experience in civil aviation maintenance, CAMO/CAMU, or engineering.

- Strong background in aircraft structures.

- English language skills (Level 2 or above).

#### **Technical & Professional Competencies**

- Deep knowledge of EASA Part-CAMO, Part-M, Part-145.

- Strong analytical and decision-making skills in structural engineering.

- Ability to work confidently with OEM manuals (SRM, AMM, IPC).

- Proven experience with AMOS/OASES is a strong advantage.

- Excellent communication skills and ability to collaborate with multiple stakeholders.

- Strong leadership mindset - ability to guide, influence, and resolve complex technical situations.

### **WORKING AT FL TECHNICS:**

- Exclusive experience to the aviation business industry,

- Access to internal training and courses,

- Supporting and cheering for your success team,

- Competitive salary range, final offer will be proposed based on your experience and competencies.

Seize this opportunity to soar to new heights with FL Technics! Apply now and be part of a globally acclaimed team shaping the future of aviation.

Salary: from 4132 € to 4958 € (brutto)
