

## **ENGINE RECORDS ANALYST. ALL CITIES, ALL COUNTRIES**

### **ABOUT COMPANY:**

FL Technics is a global provider of tailor-made services for aircraft maintenance, repair, and overhaul (MRO), delivering solutions to commercial aviation customers worldwide. FL Technics operates in a vast network of representative offices, hangars, and shop facilities, as well as the largest independent line maintenance stations network across Europe, Asia Pacific, Africa, the Middle East, and Canada.

FL Technics is part of Avia Solutions Group, the world's largest ACMI provider, operating a fleet of 192 passenger and cargo aircraft worldwide.

### **YOUR TASKS:**

- To be responsible for the review of all technical records during engine and engine module acquisitions, repairs, and sales.
- To analyze engine records to ensure accuracy and completeness regarding paperwork and records that are required to determine the airworthiness and future marketability of the engine, module, or piece parts.
- To Review, audit, and compile the data to include Life Limited Parts, Airworthiness Directives, Service Bulletins, operating history and shop visit documentation for accuracy, completeness, maintenance condition and build standard.
- To research and analyze historical records for engines being considered for purchase or sale.
- To take a leading role in all engine record problem resolution and following up to ensure resolutions are obtained in a timely manner working with both internal and external sources.
- To present the information obtained from record reviews in a logical and ordered way for management to make decisions on asset purchases and sales.
- To prepare and provide the MRO, Buyer, or Lessee with copies/links for the Engine Records relating to Engine Purchases, Lease Returns and Shop Visits.

### **WHAT YOU SHOULD BRING:**

- Work experience: Aviation experience with an engine MRO or airline and in-depth knowledge of aircraft and engine records requirements and processes including electronic recordkeeping systems is a must.
- Ability to read and understand technical data (Maintenance Manual Programs, Engine Maintenance Manuals, and relevant technical data);
- English language proficiency: Ability to speak, read, write, and understand the English language and to follow verbal and written instructions.
- MS Office package knowledge: Proficient in Word, Excel, and Outlook.
- Negotiation skills: Must be able to interface professionally, credibly, and objectively with colleagues and external contacts.
- Ability to work independently: Resourcefulness, to able to solve problems with minimal supervision,

and self-directed and willing to take the initiative.

**WORKING AT FL TECHNICS:**

- Exclusive experience to the aviation business industry;
- Internal training and courses;
- Remote work possibility;
- Supporting and cheering for your success team;
- Competitive salary, the final offer will be proposed based on your experience and competencies.
