

TECHNICAL SAFETY AND COMPLIANCE COORDINATOR. VILNIUS, LITHUANIA

We are looking for a **Technical Safety and Compliance Coordinator** to ensure effective management and timely closure of technical safety and compliance cases related to continuing airworthiness.

RESPONSIBILITIES:

- Coordinate and investigate technical safety and compliance cases related to continuing airworthiness, including SMS events, SACA/SAFA findings and internal/external audit findings;
- Conduct safety risk assessments, identify root causes and missed barriers, and coordinate appropriate corrective and risk mitigation actions;
- Monitor the timely implementation and effectiveness of corrective actions and ensure proper case closure;
- Collect and review technical information and supporting evidence required for investigations, risk assessments and compliance closure;
- Act as a liaison between CAMO, Maintenance, Flight Operations and other relevant departments on technical safety and compliance matters;
- Provide technical support during regulatory audits and inspections and represent the Technical Department in relevant safety meetings;
- Participate in the technical and safety assessment of manufacturers' Service Bulletins (SBs), including fleet applicability, reliability data and safety implications;
- Coordinate technical inputs from CAMO, MCC, Maintenance, Flight Operations, OEMs and other stakeholders;
- Ensure safety investigations, assessments, decisions and corrective actions are properly documented;
- Deliver technical safety and compliance awareness training when required.

REQUIREMENTS:

- Bachelor's degree in Aeronautical Engineering, Mechanical Engineering or a related field;
- Minimum 2 years of experience in aircraft maintenance, engineering or a similar aviation technical role;
- Experience with Safety Management Systems (SMS), Compliance Monitoring Systems (CMS) and technical investigations;
- Good knowledge of aviation safety and continuing airworthiness requirements, including EASA Part M / Part CAMO, ICAO and IOSA standards;
- Understanding of aircraft systems, structures and maintenance practices;
- Knowledge of safety risk assessment and root cause analysis techniques;
- Strong analytical and problem-solving skills;
- Excellent communication and technical report-writing skills;
- Good command of English language;
- Ability to work independently and effectively collaborate with different departments;
- Aviation Safety / SMS training or certification would be considered an advantage.

WE OFFER:

- An interesting and challenging position within an international company in a fast-moving and fascinating aviation industry;
- Opportunities to further grow and develop in the exciting and growing aviation company;
- Possibility to implement innovative ideas and solutions;
- Additional Health insurance according to the company policy;
- Free gym in the office;
- Free childcare zone;
- Other benefits from Avia Solutions Group.

We will be happy to discuss the specific amount during an interview based on your experience and qualifications.

Salary: from 2800 € to 3306 € (brutto)
