

FLEET SUPPORT ENGINEER. SANTA VENERA, MALTA

We're looking for a skilled and driven Fleet Support Engineer to join our team in Malta or Riga. This is a key role within our Maintenance Operations department, focused on supporting the technical performance, reliability, and airworthiness of our fleet.

Key Responsibilities:

- Monitor and review post-flight data for A320 aircraft.
- Provide ongoing technical support for AOG events and urgent line maintenance issues.
- Analyse repetitive defects and ensure appropriate follow-up to prevent operational delays.
- Track and manage deferred defects, ensuring targets and service levels are consistently met.
- Drive key reliability metrics and support technical investigations when required.
- Stay up to date with global Airbus fleet issues and reliability trends.
- Assist with aircraft storage, parking, and return-to-service activities.
- Collaborate with Engineering and CAMO teams to ensure long-term fleet performance and compliance.

Requirements:

- At least 5 years' experience in an aircraft engineering role.
- Recent experience working with Airbus A320 aircraft.
- Strong knowledge of Airbus avionics systems (CMC, ACMS, FDMU, ATSU).
- Comfortable working with Airbus technical documentation (TSM, ASM, WISE).
- Excellent analytical and troubleshooting skills.
- Understanding of CAMO responsibilities and relevant EASA regulations.

This is why you will love to work with us:

- Opportunity to work together with global aviation experts.
- International, friendly, modern, and comfortable work environment.
- Company subsidized lunch and healthy snacks in the office.
- Advanced health insurance after the probation period.
- Paid day off on your birthday.
- For professional and personal development opportunities, join our Talent Academy, Leaders Club, or other development incentives.
- Corporate and social events.
- Competitive salary based on your competencies and experience.

**Please note that background checks will be conducted on all applicants and restrictions that can suspend the process of employment in accordance with the Law on Aviation Article 57.1. will be additionally evaluated.*

By applying to this job advertisement, the applicant takes full responsibility for declaring truthful information. In case, if information submitted will be discovered false or the Background Check result will return negative, participation in the recruitment process will be terminated.

In its 27 years in the ACMI and air charter business, SmartLynx Airlines has earned a name for itself as one of the finest in the industry. Operating a fleet of Airbus A320s and Airbus A321s aircraft, the airline transports over 3 million passengers annually in Europe and Asia.
