

## **SOFTWARE ENGINEERING INTERN - UNPAID INTERNSHIP. VILNIUS, LITHUANIA**

Are you looking to gain real, hands-on programming experience and build a strong foundation for your future career in software development? Our team is offering an unpaid internship opportunity for motivated individuals eager to grow their skills in a professional environment.

**We promise a highly challenging field and wide scope of responsibilities, which will initially cover:**

- Assist in building and maintaining our internal software tool
- Debug, test, and improve existing code
- Collaborate with the team during development discussions and planning

**We dream about a team member who:**

- Is currently studying or has recently completed studies in a field related to software development, web development, or programming
- Has basic understanding of PHP, JavaScript, or MySQL
- Has practices working with Symfony and React (experience is a plus, not required)
- Has motivation to learn and improve coding skills
- Uses the English language at an effectively operational and independent level
- Is curious, proactive, and not afraid to ask questions

**What we offer you:**

- Hands-on development experience
- Mentorship from experienced developers who are excited to help you grow
- Opportunities to contribute ideas and see your work come to life
- A friendly, supportive, and international team where your input matters
