- Consult our subsidiary's companies about Data warehouse deployment best practices.
- Perform data analysis tasks, mostly working with transformation and validation.
- Collaborate with other ASG teams to ensure smooth operations.

About you:

- 1+ years of experience as a Data Engineer or similar role.
- Data warehouse modeling techniques knowledge (Inmon, Kimball, Data Vault).
- Advanced SQL skills with the ability to write and optimize queries (any relational DB, preferably MS SQL).
- Python skills (preferably PySpark).
- Are familiar with cloud data tools.

Would be nice if you:

- Have experience with MS Fabric or other Microsoft data stack tools.
- Have experience with Qlik-Sense/Qlik-View.
- Are familiar with ITSM principles.

What we offer:

- Opportunity to work in a vibrant international and ever-growing business aviation environment
- Opportunities for professional and personal growth; foreign language trainings
- Gym and Yoga classes for your physical health and Mindletic for mental health
- Children's room where you can leave your kids to play with supervision (Vilnius based)

- Well-being initiatives focused on creating a healthy, balanced and engaging work environment
- Various benefits related to employee life cycle in organization
- Parking or public transport ticket
- Electrical cars spots near the office
- Discounts and special offers from various partners.

The salary range provided is approximate and intended as a general guide. Actual compensation will be based on various factors, including, but not limited to, the candidate's experience, qualifications, education, and the specific requirements of the role.

Salary: from 3350 € to 5000 € (brutto)
