

PLANNING ENGINEER (PUNTA CANA). PUNTA CANA, DOMINICAN REPUBLIC (THE)

ABOUT COMPANY:

FL Technics is a global provider of tailor-made services for aircraft maintenance, repair, and overhaul (MRO), delivering solutions to commercial aviation customers worldwide. FL Technics operates in a vast network of representative offices, hangars, and shop facilities, as well as the largest independent line maintenance stations network across Europe, Asia Pacific, Africa, the Middle East, and Canada.

FL Technics is part of Avia Solutions Group, the world's largest ACMI provider, operating a fleet of 192 passenger and cargo aircraft worldwide.

YOUR TASKS:

- Plan and coordinate aircraft maintenance activities (Base Maintenance environment).
- Prepare maintenance work packages, task cards, and related technical documentation.
- Ensure efficient planning of manpower, materials, tools, and ground support equipment.
- Analyze maintenance requirements and integrate them into maintenance plans.
- Monitor maintenance progress and adjust plans according to operational needs.
- Liaise closely with Production, Engineering, Logistics, Quality, and other internal teams.
- Support on-time delivery of maintenance checks in accordance with contractual and regulatory requirements.
- Maintain accurate records and planning data in maintenance systems (e.g. AMOS).
- Communicate maintenance status and planning updates to internal stakeholders and customers when required.

WHAT YOU SHOULD BRING:

- Technical education in aviation or engineering (preferred).
- Previous experience in aircraft maintenance planning within an MRO environment.
- Good knowledge of FAA regulations (e.g. 14 CFR Part 145 and related requirements)
- Ability to read and interpret aircraft technical documentation.
- Strong organizational and analytical skills.
- Ability to work in a dynamic, deadline-driven environment.
- Good command of English (written and spoken).
- Proficiency in MS Excel and planning tools.

ADVANTAGES:

- Experience working with AMOS or similar MRO systems.
- Experience with Base Maintenance checks (C-checks and above).
- Previous experience in an international MRO organization.
- Aviation-related training or certifications.

- Participation in building and improving maintenance planning processes from the ground up.
- Experience contacting OEMs regarding deviations from approved data.
- Experience working with Airbus A320 and Boeing 737 aircraft.

WORKING AT FL TECHNICS:

- Exclusive experience to the aviation business industry;
- Access to internal training and courses;
- Supporting and cheering for your success team;
- Competitive salary range, final offer will be proposed based on your experience and competencies.

Seize this opportunity to soar to new heights with FL Technics! Apply now and be part of a globally acclaimed team shaping the future of aviation.
