

LEAD CAMO ENGINEER FOR MRO. TAGUIG, PHILIPPINES (THE)

Join Our Team as **Lead CAMO Engineer!**

Are you ready to elevate your career in the aviation industry?

Avia Solutions Group Global Services Philippines is on the lookout for a Lead CAMO (Continuing Airworthiness Management Organization) Engineer to support **FL Technics**, a globally recognized leader in aircraft maintenance, repair, and overhaul (MRO) services.

About FL Technics

As a trusted provider of tailor-made MRO solutions, FL Technics serves commercial aviation customers worldwide. With an extensive network spanning Europe, Asia-Pacific, Africa, the Middle East, and Canada, FL Technics boasts the largest independent line maintenance station network globally. Recognized as a Top Employer of 2024 by the Top Employers Institute, FL Technics prioritizes creating a supportive and rewarding work environment for its growing team across the globe.

As part of Avia Solutions Group, the world's largest ACMI provider operating more than 220 passenger and cargo aircraft worldwide, FL Technics stands at the forefront of innovation and excellence in the aviation sector.

Reporting to FL Technics, this dynamic role will be based in the ASG Global Services Philippines office in BGC, Taguig City, working in a hybrid setup aligned with the EMEA time zone.

Key Responsibilities

- Analysis and evaluation of: ADs, SBs, Modifications and Repairs, Parts and Components (Airframe, Appliance, Engine, LG, APU);
- Statuses review, prepare, manage and update;
- Prepare and manage Structure Repair and Damage Log, SSI list;
- Prepare and manage aircraft Avionics and Software lists;
- Prepare, issue and manage Work Orders;
- Maintenance instructions development (EO, JO, WC, etc.);
- Review and analyze completed Visit Packages, Work Orders and Shop Visits;
- Lead and supervise a team of CAMO Engineers;
- Ensure compliance with applicable airworthiness regulations (e.g., EASA Part-M, Part-CAMO);
- Coordinate workload distribution, task prioritization, and team development;
- Oversee technical records, maintenance programs, and documentation processes;
- Liaising with TC/STC holders, OEMs, authorities, auditors and customers;
- Participate in aircraft deliveries, redeliveries, and transition projects;
- Drive process improvements and contribute to quality and safety culture
- Lead and manage a local team effectively.

What We're Looking For

- Degree in Aerospace or Mechanical Engineering, or equivalent technical qualification;
- 5+ years of experience in a CAMO or airworthiness management role within aviation;
- Strong knowledge of EASA Part-M / Part-CAMO / Part-145 regulations and associated airworthiness procedures;
- Experience with Airbus A320 FAM and/or Boeing B737 is preferred;
- Experience performing technical reviews, maintenance planning, and documentation management;
- Proven leadership or supervisory experience with team coordination and workload management;
- Excellent communication, interpersonal, and organizational skills.

The benefits of being part of our team:

- Be part of a global aviation leader recognized for excellence and employee well-being.
- Work in a hybrid setup with a collaborative and forward-thinking team.
- Opportunity to grow in a challenging and fulfilling role within the aviation industry.
- Your contributions will be valued and rewarded, with competitive compensation and employee recognition programs.

A remote workforce service centre supporting Avia Solutions Group's ACMI airlines and MROs worldwide.
