

AIRCRAFT DOCUMENTATION ENGINEERING MANAGER. VILNIUS, LITHUANIA

We're looking for an Aircraft Documentation Engineering Manager to join our Technical team in Vilnius, Lithuania. This is a challenging and hands-on role, offering the opportunity to take ownership of technical documentation and support key activities across different stages of the aircraft lifecycle.

WHY AVIAAM LEASING?

Because we are a team that genuinely supports each other - we work as a united core, driven by shared goals and a strong sense of purpose.

AviaAM Leasing, part of the Avia Solutions Group, is a global provider of aircraft leasing, trading and remarketing solutions. Achievements in aircraft finance and commercial lease over the past decade has put the company among the TOP-50 leasing players in the market. Within the last 5 years, AviaAM Leasing has attracted over \$2 billion worth of investments, executed more than 150 aircraft transactions and implemented over 50 conversion and recovery projects.

WHAT YOU'LL BE DOING

- Evaluate engine and aircraft status and configuration prior to purchase;
- Review aircraft records during aircraft transitions or other inspections;
- Manage the technical aspects of aircraft delivery, redelivery and transitions;
- Prepare final aircraft documentation and records to the required standard during aircraft and engine transitions;
- Review preliminary aircraft maintenance check worksopes with the MRO or CAMO;
- Represent the company on-site during maintenance checks;
- Analyze aircraft records and invoices following the completion of maintenance checks;
- Evaluate and apply aircraft and engine Airworthiness Directives (ADs) and Service Bulletins (SBs) for the relevant ATA chapters;
- Monitor the status of life-limited and hard-time-controlled parts across the aircraft fleet;
- Manage maintenance, planning and engineering-related activities efficiently;
- Provide support on technical and maintenance-related queries to company management and other departments;
- Review and update fleet-wide technical documentation;
- Prepare Fleet Summary Sheets.

WHAT WE'RE LOOKING FOR

- University degree in Aeronautical, Mechanical, Industrial Engineering, Aviation or a related field preferably;
- Solid technical aviation background, with experience gained at an airline, aircraft lessor, CAMO or MRO organization;

- Strong knowledge and practical experience in aircraft technical records and documentation management;
- Good understanding of the aircraft lifecycle, including maintenance, delivery, redelivery and transition processes;
- Experience in aircraft maintenance, planning, engineering or technical records-related activities;
- Ability to review and analyze technical data and aircraft records, identify discrepancies and ensure documentation meets the required standards;
- Strong analytical, organizational, written and verbal communication skills, with excellent attention to detail;
- Ability to coordinate effectively with internal teams, MROs, CAMOs and other external partners;
- Proficiency in Microsoft Office applications and preferably AI tools;
- Fluency in English, both written and spoken;
- Ability to work independently and collaboratively, with a proactive attitude and a strong sense of ownership.

WHAT WE OFFER?

- A dynamic, inspiring and international workplace;
- Opportunities for personal and professional growth;
- Hybrid work possibilities;
- Private health insurance (after trial period);
- Fresh fruit Tuesdays and hot drinks in the office;
- Gym and exercise classes available to support your physical health;
- A supervised children's room where you can leave your kids to play safely;
- Parking or public transport ticket;
- Discounts and special offers from various partners;
- Fun company events and team-building activities that actually connect people.

Feel like we'd make a great team? Then prepare for landing - your next career destination starts with us!

Salary: from 4900 € (brutto)

Salary comment: Depending on your skills and experience.

AviaAM Leasing is a global aviation holding company engaged in commercial aircraft acquisition, leasing, reconfiguration and sales.
