

MAINTENANCE WATCH ENGINEER. CAIRNS, AUSTRALIA

Welcome aboard!

Aboutus

SkytransAustralia is part of Avia Solutions Group, the world's largest ACMI (Aircraft, Crew, Maintenance, and Insurance) provider, operating a fleet of 145 aircraft on 6 continents. The group also provides a range of aviation services: MRO (Maintenance, Repair, and Overhaul), pilot and crew training, groundhandling, as well as a variety of associated aviation services. Supported by 14,000 highly skilled

Aboutthe Role

We are seeking an additional experienced and highly motivated **Maintenance Watch Engineer** to join our Cairns-based team. Reporting to the Responsible Manager – Continuing Airworthiness (CAM), this critical role supports the safe and efficient operation of our fleet by providing technical oversight, defect management and engineering decision-making, both during shift and after hours. If you are a safety-driven B1 or B2 Licensed Aircraft Maintenance Engineer who thrives in a dynamic operational environment, we would love to hear from you.

Keyresponsibilities

The Maintenance Watch Engineer plays a key operational role in:

- Providing technical advice and support to Engineering and Flight Crew
- Managing and coordinating aircraft breakdowns, including remote locations
- Supporting aircraft dispatch and return-to-service decisions
- Liaising with OEMs, MRO providers, manufacturers and regulatory authorities
- Assessing Airworthiness Directives, OEM service information and engineering documentation
- Managing structural defects, avionics modifications and engineering orders (Part 21M)
- Supporting 'out of hours' AOG requirements
- Monitoring repair and overhaul agency performance
- Ensuring compliance with CASR Part 42 airworthiness requirements

AboutYou

You are a highly experienced engineer with strong technical judgement and the ability to manage competing operational demands without compromising safety, and you have:

- CASA B1 or B2 Aircraft Maintenance Engineer Licence (or equivalent)
- Extensive knowledge of company-type aircraft
- Comprehensive understanding of CASR Part 42
- Strong knowledge of aircraft technical and defect management principles
- Demonstrated troubleshooting experience

- High level of computer literacy (Microsoft Office, technical systems)
- Current ASIC or ability to obtain
- Current type rating on company aircraft and previous experience in a similar operational/technical control role (desirable)

You will also bring:

- Excellent communication and stakeholder management skills
- Strong decision-making capability in time-critical situations
- High attention to detail and organisational skills

How to apply:

If you have the skills and experience (or thereabouts), we'd love to hear from you! Please submit your cover letter and/or resume addressing the points mentioned above.

Only shortlisted candidates will be contacted for an interview. Applicants must be eligible to live and work in Australia as either a citizen, permanent resident, or hold an appropriate VISA. You must be able to successfully pass pre-employment and continuing medical, drug and alcohol pathology screening. Skytrans Australia is committed to equal opportunity employment through fair recruitment practices.
