FLEET MANAGEMENT ANALYST. DUBLIN, IRELAND / REMOTE / HYBRID WORK

About the role

As a **Fleet Management Analyst**, you will support strategic and financial decision-making related to the Group's aircraft fleet. Working across Group airlines, you will analyze fleet plans, maintenance and aircraft business cases, asset-related costs, maintenance reserves, and insurance claims. This role offers the opportunity to work closely with senior management and multiple airlines across the Group, turning complex operational and financial information into clear insights that support important fleet decisions. We are looking for someone who is highly analytical, detail-oriented, comfortable working with complex data, and able to communicate findings clearly to senior stakeholders.

Key Responsibilities:

Fleet Planning & Business Analysis

- Build, maintain, and regularly update fleet plans across Group airlines.
- Develop and review fleet and maintenance business cases submitted by Group airlines.
- Provide analysis to support decisions related to heavy maintenance, aircraft sourcing, aircraft redelivery or lease extension, and other fleet-related investments.
- Perform asset management and cost-control analyses to support fleet management decision-making.

Financial Monitoring & Control

- Monitor and support Group airlines in managing maintenance reserves and insurance claims.
- Develop, implement, and maintain control processes across Group airlines.
- Identify trends, risks, and opportunities through financial and operational analysis.

Management Support & Collaboration

- Prepare clear and insightful PowerPoint presentations, business cases, and analytical materials for C-level management.
- Translate complex financial and operational information into structured insights and recommendations.
- Collaborate with Group airlines and other internal stakeholders on fleet-related topics and initiatives.

Who are we looking for?

- 1 - 3 years of relevant professional experience, ideally in aviation, fleet or asset management, financial analysis, corporate finance, controlling, consulting, or a related area.
- Bachelor’s degree in finance, Economics, Business, Engineering, or a related field. A Master's degree would be considered an advantage.
- Strong Microsoft Office skills, particularly Excel and PowerPoint.

- Strong analytical and problem-solving skills, with the ability to break down complex topics and present them in a clear and logical way.
- Ability to communicate confidently and clearly with senior stakeholders.
- High attention to detail and accuracy.
- Strong planning and organizational skills, with the ability to manage multiple priorities.
- A responsible, collaborative, and results-oriented approach.
- Flexibility and the ability to adapt in a dynamic international environment.

What do we offer?

- Gym and Yoga classes for your physical health;
- Children’s room where you can leave your kids to play with supervision;
- Well-being initiatives focused on creating a healthy, balanced and engaging work environment;
- Working model: Hybrid, 4 days in the office / 1 day remote;
- Discounts and special offers from various partners;
- Competitive salary, depending on your qualifications and experience;
- Opportunities for professional and personal growth; foreign language training.
