

AIRCRAFT MECHANIC FOR SAW, TURKEY STATION. ISTANBUL, TURKEY

SmartLynx Technik is looking for experienced Aircraft Mechanics for our station in SAW to perform line maintenance on our B737MAX-8 aircraft. Mechanics endorsed on the A320 will be considered an advantage.

The contract duration is 12 months, with the possibility of extension.

YOUR MAIN DUTIES

- You will be involved in line maintenance activities on customer's aircraft in a safe and timely manner;
- Will perform aircraft maintenance in accordance with company procedures, approved data, and Part 145 regulation;
- Will be required to work as part of a small team covering a 24/7 operation which is usually 14 on 14 off shift pattern;
- Implementing and adhering to strict safety guidelines;
- Will report all quality and safety-related issues;
- Creating and maintaining repair logs and records;
- Collaborating with engineers and system mechanics to ensure that all aircraft systems are running correctly;
- The right candidate will have a pro-active and flexible approach and be expected to work away from the base when needed;
- Ensuring tools/ equipment, vehicles, and facilities are maintained to an acceptable standard;
- Ensuring that all aircraft parts are accurately labeled, organized, and restored;
- Perform other duties as may be required from time to time.

LET'S TALK ABOUT YOU

- High school diploma or equivalent;
- Experience on B737NG/MAX (sheet metal experience considered to be an advantage);
- Experience on A320 will be considered an advantage
- Part-66, Part-145 regulation knowledge;
- At least two years experience as a line/ base maintenance mechanic;
- Relevant pages of personal experience logbook;
- Good computer skills are a requirement;
- Category B driving license is essential.
