

POWERPLANT ENGINEERING MANAGER. VILNIUS, LITHUANIA

We're looking for a Powerplant Engineering Manager to join our Technical team in Vilnius, Lithuania. This is a challenging and hands-on role, offering the opportunity to manage exciting projects and work across different stages of the aircraft lifecycle.

WHY AVIAAM LEASING?

Because we are a team that genuinely supports each other - we work as a united core, driven by shared goals and a strong sense of purpose.

AviaAM Leasing, part of the Avia Solutions Group, is a global provider of aircraft leasing, trading and remarketing solutions. Achievements in aircraft finance and commercial lease over the past decade has put the company among the TOP-50 leasing players in the market. Within the last 5 years, AviaAM Leasing has attracted over \$2 billion worth of investments, executed more than 150 aircraft transactions and implemented over 50 conversion and recovery projects.

WHAT YOU'LL BE DOING

- Evaluate aircraft and engine status, configuration and technical condition prior to acquisition;
- Analyze engine maintenance history and performance data using Engine Condition Monitoring (ECM) programs;
- Review and validate engine records during aircraft deliveries, redeliveries, transitions and technical inspections;
- Lead the technical management of engine deliveries, redeliveries and transition projects;
- Prepare and ensure compliance of final engine documentation and records throughout aircraft and engine transitions;
- Coordinate engine and APU shop visits, including work scope preparation and technical follow-up with MROs;
- Represent the company during engine disassembly, scrap review and engine testing activities;
- Review engine shop visit records, maintenance reports and invoices upon completion;
- Evaluate and monitor the implementation of Airworthiness Directives (ADs) and Service Bulletins (SBs);
- Monitor the status of Engine and APU Life-Limited Parts (LLPs) across the fleet;
- Manage maintenance, planning and engineering activities to ensure successful project execution;
- Provide technical guidance and support to management and cross-functional teams on aircraft and engine-related matters.

WHAT WE'RE LOOKING FOR

- University degree in Aeronautical Engineering, Aviation or related field;
- Strong technical knowledge of CFM and GE engines;
- Solid technical aviation background, with experience gained at an airline, aircraft lessor or MRO

- organization;
- Proven experience in project management;
- In-depth understanding of the aircraft lifecycle, including delivery, transition, sale and part-out processes;
- Ability to analyze technical data and translate it into commercial insights regarding aircraft maintenance status;
- Strong analytical, numerical, written and verbal communication skills, with the ability to build effective relationships with clients and business partners at all levels;
- Proficiency in Microsoft Office applications;
- Fluency in English, both written and spoken;
- Ability to work independently and collaboratively, with a self-motivated attitude and a sense of ownership.

WHAT WE OFFER?

- A dynamic, inspiring and international workplace;
- Opportunities for personal and professional growth;
- Hybrid work possibilities;
- Private health insurance (after trial period);
- Fresh fruit Tuesdays and hot drinks in the office;
- Gym and exercise classes available to support your physical health;
- A supervised children's room where you can leave your kids to play safely;
- Parking or public transport ticket;
- Discounts and special offers from various partners;
- Fun company events and team-building activities that actually connect people.

Feel like we'd make a great team? Then prepare for landing - your next career destination starts with us!

Salary: from 4900 € (brutto)

Salary comment: Depending on your skills and experience.

AviaAM Leasing is a global aviation holding company engaged in commercial aircraft acquisition, leasing, reconfiguration and sales. The company specializes in mainline narrow-body aircraft with major focus on the Europe, Asia-Pacific and North America markets. AviaAM Leasing was ranked amongst world's TOP50 aircraft leasing companies according to AirFinance Journal three times in a row.
