

ENGINEER. VILNIUS, LITHUANIA

We are looking for a Flight Simulator Engineer to ensure the operational readiness and reliability of our Flight Training Devices used in pilot and cabin crew training.

In this role, you will be responsible for maintaining Full Flight Simulators and other Training Devices.

You will carry out both preventive and corrective maintenance to minimize any disruptions to the pilot and cabin crew training schedule.

Join us and play a key role in supporting aviation safety and training excellence!

We promise a highly challenging field and wide scope of responsibilities, which will initially cover:

- Maintenance and repair of Flight Simulation Training Devices (FSTD) (electronic, computer, pneumatic, mechanic, and hydraulic systems);
- Liaison with flight crews, both pre and post training sessions to ensure smooth running of the sessions;
- Ensuring all documentation is completed correctly to help ensure high standard;
- Providing initial response to flight crews during training sessions and reacting immediately to any fault that cannot be rectified, and that can result in “lost time” affecting the availability of a simulator;
- Performing diagnosis and troubleshooting, including required software and hardware adjustments;
- Using repair manual and user manual (in English).

We dream about a team member who:

- Has university bachelor's degree in engineering field (Aviation, Electronics, Informatics, Automation, Mechanics or a similar field);
- Has experience with measuring instruments (oscilloscopes, multimeters, etc.);
- Has ability to read drawings and schemes of electronic, electrical, hydraulic, and mechanical systems;
- Has experience using and repairing electronic and computer equipment;
- Has excellent knowledge of English language (both written and spoken);
- Has experience working with simulators or similar field (is an advantage);
- Has analytical thinking, high level of responsibility, ownership, and is result oriented;
- Is attentive to details;
- Has great problem-solving skills;
- Can work independently and is self-motivated;
- Is flexible with good time management skills;
- Is service-minded;

- Wants to learn every day and thinks aviation could be the love of one`s life;
- Can work shifts (day and night).

What we offer you:

- A health insurance package after 3 months working in the company;
- Contribution to your pension fund for seniority;
- Additional holiday days for seniority after 2 years working in the company;
- A Wellness Day to take care of yourself and a Birthday Day to celebrate;
- Mental gym to support your emotional wellbeing from Mindletic;
- Sport club and childcare service for your convenience;
- Contemporary and convenient office space in a new growing AEROCITY area;
- Public transport cover during the workdays or parking space near the office;
- Discounts and special offers from various partners of the group;
- An international and multicultural environment in vibrant industry with plenty of challenges to achieve;
- Personal growth possibilities if you are eager to progress in your career, we have a bunch of examples to share.

We offer career opportunities at different levels within this position depending on your experience. Feel free to apply, and we'll discuss the best match for you during the process: 

Salary: from 1984 € to 4300 € (brutto)
