

TECHNICAL SAFETY AND COMPLIANCE COORDINATOR. VILNIUS, LITHUANIA

Are you passionate about aviation safety and eager to make a real impact? We're looking for a **Technical Safety and Compliance Coordinator** to play a key role in ensuring the safety and airworthiness of our fleet. In this dynamic position, you'll work closely with engineering, operations, and regulatory authorities, analyzing safety events, conducting risk assessments, and driving corrective actions. If you thrive in a fast-paced environment and have a strong technical background in aviation, this is your chance to elevate your career with us!

RESPONSIBILITIES:

- Act as a liaison between the CAMO, Maintenance, Flight Operations, and other departments for all technical aviation safety and compliance monitoring related matters.
- Provide technical support during regulatory audits and inspections.
- Prepare information for Safety Review Boards and Safety Action Groups to represent the CAMO department.
- Deliver technical training and safety awareness sessions to Technical Department personnel and other relevant staff.
- Analyze allocated safety events and occurrences (e.g., incidents, near-misses, technical failures), as well as findings affecting the fleet's airworthiness.
- Perform safety risk assessments and escalate high-risk issues to management.
- Investigate root causes, propose corrective actions, and monitor implementation.
- Oversee timely completion of corrective actions and risk management plans.
- Ensure proper documentation and evidence for case closure.
- Assist in manufacturers' Service Bulletins (SBs) and Airworthiness Directives (ADs) safety assessment.

REQUIREMENTS:

- Bachelor's degree in Aeronautical Engineering, Mechanical Engineering, or a related field.
- Minimum 3-5 years in aircraft maintenance, engineering, or a similar technical role in aviation.
- Hands-on experience with Safety Management Systems (SMS), Compliance Monitoring Systems (CMS), and technical investigations.
- Strong understanding of aviation safety regulations (e.g., EASA Part M/Part CAMO, ICAO, IOSA).
- Technical expertise in aircraft systems and maintenance practices.
- Proficiency in risk assessment and root cause analysis.
- Excellent problem-solving and communication skills.
- Aviation Safety or SMS knowledge (e.g., ICAO SMS course, Safety Risk Management training).
- Aircraft Maintenance License (e.g., EASA Part 66) would be advantageous.

WE OFFER YOU:

- An interesting and challenging position within an international company in a fast-moving and fascinating aviation industry;
- Friendly atmosphere in a modern business center;
- All conditions and opportunities for professional and personal growth;
- Possibility to implement innovative ideas and solutions;
- Additional Health insurance according to the company policy;
- Free gym in the office;
- Free childcare zone;
- Free parking next to the main office building;
- Teambuilding's budget per quarter;
- Other benefits from Avia Solutions Group.

The final salary is a matter of agreement as it depends on the experience and competencies of the candidate.

Salary: from 3300 € to 4200 € (brutto)
