

POWER PLATFORM DEVELOPER. VILNIUS, LITHUANIA

Avia Solutions Group is the world's largest ACMI (Aircraft, Crew, Maintenance, and Insurance) provider, operating a fleet of more than 200 aircraft worldwide and the parent company of over 250 subsidiaries. The group offers a wide range of aviation solutions, including MRO (Maintenance, Repair, and Overhaul), pilot and crew training, ground handling, and other related aviation services. Supported by 14,000 highly skilled aviation professionals, the group operates across 6 continents.

Join our dynamic team at ASG Group as a **Power Platform Developer**, where you'll deliver innovative services and solutions using MS Power Platform, custom development, and data integrations. Collaborate closely with aviation process experts and contribute to process efficiency initiatives. Your role will also involve formalizing solutions with comprehensive documentation and providing 3rd line support for developed applications.

KEY RESPONSIBILITIES:

- Develop and implement solutions for ASG Group clients using MS PowerApps, SharePoint Online, and Power Automate.
- Collaborate with team members to ensure mutual success.
- Work closely with aviation process experts to understand and address their needs.
- Create detailed documentation for solutions.
- Drive process efficiency initiatives.
- Support existing Power Platform applications, troubleshoot issues, and implement enhancements.
- Stay up to date with the latest developments and features in the Power Platform ecosystem and apply this knowledge to improve solutions.

ABOUT YOU:

- Experienced in developing with Microsoft PowerApps and Power Automate.
- Analytical thinker with a strong willingness to learn.
- Positive, creative, and possesses a can-do attitude.
- Able to work independently and as part of a team.
- Proficient in verbal and written English.
- Knowledgeable about security and application lifecycle management.

PREFERRED QUALIFICATIONS:

- Experience customizing SharePoint Online.
- Canvas and Model-Driven App Proficiency.
- Advanced Power Automate Flow Design.
- Experience with IT system integration (REST API, Web services).
- Knowledge of Power Platform security models, including roles, user permissions, and environment management.

Additional Information:

- Familiarity with agile methodologies is a plus.
- Strong problem-solving skills and attention to detail.
- Ability to manage multiple tasks and projects simultaneously.

What we offer:

- Opportunity to work in a vibrant international and ever-growing business aviation environment
- Opportunities for professional and personal growth; foreign language trainings
- Gym and Yoga classes for your physical health and Mindletic for mental health
- Children's room where you can leave your kids to play with supervision (Vilnius based)
- Well-being initiatives focused on creating a healthy, balanced and engaging work environment
- Various benefits related to employee life cycle in organization
- Parking or public transport ticket
- Electrical cars spots near the office
- Discounts and special offers from various partners.

The salary range provided is approximate and intended as a general guide. Actual compensation will be based on various factors, including, but not limited to, the candidate's experience, qualifications, education, and the specific requirements of the role.

Salary: from 2500 € to 4950 € (brutto)

Avia Solutions Group, the world's largest ACMI (Aircraft, Crew, Maintenance, and Insurance) provider, operates a fleet of 145 aircraft on 6 continents. Supported by 14,000 professionals, the group is the parent company to over 250+ subsidiaries including Avion Express, BBN Indonesia Airlines, and KlasJet.
