

## **FL TECHNICS LAW INTERNSHIP PROGRAM. VILNIUS, LITHUANIA**

### **ABOUT FL TECHNICS:**

FL Technics is a global provider of tailor-made aircraft maintenance, repair, and overhaul (MRO) services, supporting commercial aviation customers worldwide. We operate an extensive network of representative offices, hangars, and shop facilities, including the largest independent line maintenance station network across Europe, Asia Pacific, Africa, the Middle East, and Canada.

Recognized as a **Top Employer of 2026** by the Top Employers Institute, FL Technics continues to invest in building a great workplace and supporting the well-being of our growing team in Lithuania and around the world.

Join our Law Internship Program and step into the legal team of a truly global aviation company and gain hands-on experience in a professional legal environment. We are looking for motivated students who are eager to learn, grow, and develop their legal knowledge in practice.

As an intern, you will gain insight into legal operations, knowledge base management, document structure and registration processes, and document management systems. You will work alongside experienced professionals who are ready to support, guide, and teach you every step of the way, helping you build valuable practical skills for your future career.

### **IF YOU:**

- Are a student in the civil, business, or EU law fields.
- Possess strong written and verbal communication skills in Lithuanian and English.
- Bring a proactive mindset, enthusiasm, and initiative.
- Are eager to learn and grow through hands-on internship experience in a professional legal environment.

### **INTERNSHIP DURATION:**

1-3 months (summer)

---

FL Technics is a global provider of tailor-made services for aircraft maintenance, repair, and overhaul (MRO), delivering solutions to commercial aviation customers worldwide. With more than 2500 employees FL Technics operates in a vast network of representative offices, hangars, and shop

facilities, as well as the largest independent line maintenance stations network across Europe, Asia Pacific, Africa, the Middle East, and Canada.
