

IT BUSINESS PARTNER. VILNIUS, LITHUANIA

ABOUT COMPANY:

FL Technics is a global provider of tailor-made services for aircraft maintenance, repair, and overhaul (MRO), delivering solutions to commercial aviation customers worldwide. FL Technics operates in a vast network of representative offices, hangars, and shop facilities, as well as the largest independent line maintenance stations network across Europe, Asia Pacific, Africa, the Middle East, and Canada.

Recognized as Top Employer of 2025, awarded by the Top Employers Institute, FL Technics demonstrates continuous effort and investments to create a great work environment and ensure the well-being of the ever-growing team in Lithuania and across the globe.

FL Technics is part of Avia Solutions Group, the world's largest ACMI provider, operating a fleet of 192 passenger and cargo aircraft worldwide.

We are looking for an analytically driven and strategic **IT Business Partner** to serve as a trusted advisor between the IT department and key business units. This role combines technical acumen with business insight to identify, design, and implement data-informed technology solutions that drive operational efficiency, innovation, and growth.

YOUR TASKS:

- Partner with business leaders to understand strategic objectives and translate them into technology and data requirements.
- Analyze complex business processes, identify inefficiencies, and propose digital or automation solutions.
- Use data analytics, KPIs, and reporting tools to support decision-making and prioritize technology investments.
- Lead business case development with cost-benefit analysis, ROI projections, and risk assessments.
- Collaborate with data teams to ensure availability and accessibility of relevant business intelligence.
- Facilitate requirements gathering for system enhancements, new applications, or process reengineering.
- Translate business needs into functional specifications and liaise with technical teams during implementation.
- Monitor and report on project progress, value delivery, and adoption metrics.
- Drive user engagement and support change management efforts across technology initiatives.

WHAT YOU SHOULD BRING:

- Bachelor's degree in Information Systems, Business Analytics, Computer Science, or related field.
- 5+ years of experience in IT, with a focus on business analysis, data-driven decision support, or consulting.
- Proven ability to synthesize data, generate insights, and make recommendations.

- Proficiency in business analytics tools (e.g., Power BI, Tableau, Excel, SQL) is strongly preferred.
- Solid understanding of enterprise systems (ERP, CRM, etc.) and how they support business processes.
- Experience with project management and Agile methodologies is a plus.
- Strong communication, stakeholder management, and presentation skills.

WORKING AT FL TECHNICS:

- Exclusive experience to the aviation business industry;
- Flexible working hours to promote work-life balance;
- Work remotely for up to one month a year;
- Additional private health and accident insurance;
- Discount system with partnering companies;
- Access to internal training and courses;
- Complimentary in-house gym and other sports activities;
- Supporting and cheering for your success team;
- Competitive salary range, final offer will be proposed based on your experience and competencies.

Seize this opportunity to soar to new heights with FL Technics! Apply now and be part of a globally acclaimed team shaping the future of aviation.

Salary: from 2500 € to 3000 € (brutto)
