

## **BUSINESS INTELLIGENCE DEVELOPER. VILNIUS, LITHUANIA**

This is a great opportunity to become a part of our IT team in Vilnius. We are seeking an experienced Business Intelligence Developer to join our expanding IT team. Collaborating within a team of dedicated professionals, you will thrive in a dynamic technical environment, responsible for the seamless operation, development, and maintenance of various internal and external systems. If you're innovative and thrive on challenges, we'd love to hear from you!

### **We promise a highly challenging field and wide scope of responsibilities, which will initially cover:**

- Mining and analyzing data to refine product development, marketing, and business strategies.
- Creating bespoke data models and algorithms to leverage datasets and produce insights.
- Crafting processes and tools for model performance surveillance and data accuracy analysis.
- Safeguarding sensitive data, including strategic documents and decisions.
- Working according to approved company processes.
- Working with company's IT systems to monitor and ensure a smooth IT Development department process.
- Participating in daily meetings based on Lean principles.
- Setting and achieving short-term and long-term goals in accordance with the company's strategic goals.
- Performing other duties and responsibilities assigned by direct manager.

### **We dream about a team member who:**

- Has at least 2 years of experience working in IT analytical or other related position.
- Is proficient in MySQL, MS SQL & can effectively use either PowerBI or ClickSense & Apache NiFi or MS Fabric.
- Can ensure effectiveness and accuracy of data sources and data gathering techniques.
- Can connect different systems to represent the current company status to help with solution generation.
- Has experience in optimization of processes.
- Is able qualitatively and timely perform and report duties.
- Is able to work independently and is self-motivated and willing to take ownership.
- Knows how to manage several complex projects at once.
- Has analytical and conceptual thinking skills.
- Is flexible with good time management skills.
- Uses the English language at an effectively operational and independent level.
- Has willingness to share skills, knowledge, and expertise.

- Has respectful and positive attitude.
- Wants to learn every day and thinks aviation could be the love of one`s life.

#### **What we offer you:**

- A health Insurance package after 3 months working for the company.
- Additional holiday days for seniority after 2 years working for the company.
- Contribution to your pension fund for seniority.
- Work from home in compliance with company policy.
- A Wellness Day to take care of yourself and a Birthday Day to celebrate.
- Mental gym to support your emotional wellbeing from Mindletic.
- An entertainment flight with a full flight aviation training simulator.
- Contemporary and convenient office space in a new growing AEROCITY area.
- Sport club and childcare service for your convenience.
- Public transport cover during the weekdays or parking space near the office.
- Discounts and special offers from various partners of the group.
- Extensive on boarding plan to ease your integration into company.
- An international and multicultural environment in vibrant industry with plenty of challenges to achieve.
- Personal growth possibilities if you are eager to progress in your career, we have a bunch of examples to share.

Salary: from 2810 € (brutto)
